

ALKALINE DETERGENT FOR LINEN MECHANICAL WASHING

- It directly acts on linen fibres, facilitating the removal of dirt.
- It facilitates the removal of stains during washing.
- Ideal for cotton, synthetic and mixed linen.

SUGGESTIONS

Only for professional use to combine with surfactant products such as 2 LAV or 2 LAV EXTRA.

DESCRIPTION

The washing of professional linen such as the one used in restaurants and flat bedroom linen, requires a detergent that is able to efficiently treat these fabrics, guaranteeing the best cleaning result.

1LAV is a strongly alkaline product, rich in complexing and dispersant agents, to be used only with automatic dosing devices combined with the 2 LAV product for the mechanical washing of cotton, synthetic and mixed linen.
