

DESCALING DETERGENT

- Restores shine to faucets.
- Compatible with chrome accessories.
- Quickly eliminates limescale deposits.

SUGGESTIONS

Effectively removes concrete and mortar residue.

Particularly effective on steel surfaces.

As with all acidic products, to prevent damage, avoid contact with marble and limestone surfaces.

DESCRIPTION

The greatest danger in removing limescale from faucets and bathroom fixtures is the risk of damaging chrome or plastic elements.

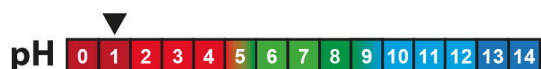

DS FOS is a phosphoric acid-based descaling detergent suitable for the rapid and complete removal of limescale deposits, rust, saline and soap residues, compatible with all metallic and non-metallic material.

Ideal for the cleaning and descaling of bathroom fixtures, chrome faucets, stainless steel, aluminium, ceramics, terracotta, plastic etc.

DESCALING DETERGENT

PHYSICAL AND CHEMICAL
CHARACTERISTICS

Appearance	Clear liquid
Color	Red
Fragrance	Perfumed
Specific weight	1.180 ± 0.01 g/ml
Solubility in water	Complete in all ratios
Chemical properties	Nonionic

Low

AVAILABLE PACKAGING

Carton with 12 bottles of 1L - 016DSFO0012

USE MODALITY

Use full-strength or diluted up to 10% in water according to the level of scale to be removed. Wipe the area with a sponge soaked in the solution. Rinse.

For the removal of concrete from large surfaces, it is recommended to wet the surface first with a 10% solution, and then work with a single-brush floor machine or washer-dryer machine. Rinse.
