

## READY TO USE LIQUID LIMESCALE REMOVER DETERGENT

- “Non-acidic” descaling detergent.
- Compatible with marble and limestone surfaces.
- Quickly removes soapy residues.

### SUGGESTIONS

Ideal for the daily cleaning of hotel bathrooms with marble surfaces.

### DESCRIPTION

Safety of use, convenience and compatibility with all materials are essential characteristics required of a product that must ensure maximum effectiveness and maximum results in daily cleaning. NO CAL SOFT is a “non-acidic” limescale remover detergent for the daily cleaning of bathroom fixtures and faucets. Specifically formulated for cleaning and descaling marble surfaces, limestone and all types of hard surfaces. Thanks to its special formula, it can be used on all acid-sensitive surfaces where traditional acid-based descaling products cannot be used. NO CAL SOFT effectively removes dirt, soap residue and limescale streaks even from faucets. Its easy-to-rinse formula leaves surfaces sanitised, shiny and streak-free.

Leaves behind a pleasant scent with a feeling of cleanliness and hygiene.

### PHYSICAL AND CHEMICAL CHARACTERISTICS

|                     |                       |
|---------------------|-----------------------|
| Appearance          | Clear liquid          |
| Color               | Orange                |
| Fragrance           | Scented               |
| Specific weight     | 1.010 ± 0.01 g/ml     |
| Solubility in water | Complete at any ratio |
| pH                  | 11.6 ± 0.3            |
| Chemical properties | Anionic - nonionic    |

Moderate

### AVAILABLE PACKAGING

Carton with 12 bottles of 750 ml - 016NOCA7512  
Carton with 4 cans of 5 Kg - 016NOCA0020

### USE MODALITY

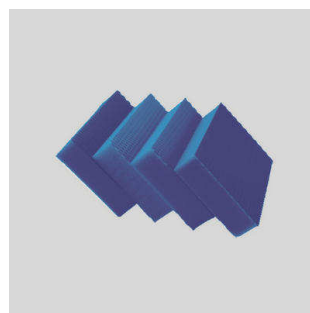

The product is ready for use.  
Spray the product on a cloth or directly on the surface to be cleaned.  
Leave on a few minutes to completely dissolve the limescale.  
Remove with the recommended cloth or sponge.  
Rinse to complete.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
