

GLASS AND HARD SURFACE CLEANER WITH AMMONIA

- Quickly cleans glass, crystal and hard surfaces in general.
- It leaves no marks and degreases thoroughly.
- Ammonia-enriched formula.

SUGGESTIONS

DIK VETRI PLUS is a useful product for cleaning surfaces without rinsing. Also ideal as a multi-purpose product for daily cleaning.

DESCRIPTION

Some surfaces, such as glass and crystal, are very often difficult to clean. The removal of marks, fingerprints and halos can require a considerable amount of time and effort that does not always lead to optimal results.

DIK VETRI PLUS is a no-rinse liquid detergent based on surfactants with excellent dirt-emulsifying capacity.

It guarantees effective cleaning by removing dust, fingerprints and more generally all kinds of dirt without leaving halos. Its formula, enriched with ammonia, thoroughly degreases surfaces and also dries quickly.

Particularly suitable for washing glass and mirrors, it is ideal for cleaning different types of surfaces: tiled, formica, polished marble, plexiglass and steel.

GLASS AND HARD SURFACE CLEANER WITH AMMONIA

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Clear liquid
Colour	Light blue
Fragrance	Perfumed
Specific weight	0.980 ± 0.01 g/ml
Solubility in water	Complete in all ratios
pH	9.5
Chemical properties	Anionic - nonionic

FOAMING POWER

Low

AVAILABLE PACKAGING

750 ml bottles - box of 12 - (single product code) - 016DIKP7501

USE MODALITY

Ready to use product.
Spray on the surfaces to be cleaned and wipe with the indicated products.

FOR PROFESSIONAL USE ONLY.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
