

SANITIZER ANTI-ODOUR FOR HELMETS AND SPORT FOOTWEAR

- Specifically studied for the use with the machine Sani-Helmet.
- It sanitizes clothes and sport equipment in just 3 minutes.
- Perfect drying for an immediate use.

SUGGESTIONS

To guarantee the proper functioning of the Sani-Helmet machine, without any damage of the dosage system and insure the best result in sanitation, it's needed to exclusively use FOG SANITIZER.

DESCRIPTION

The hygiene of garments and personal accessories is fundamental to avoid bacterial growth and smelly garments.

For this reason, Allegrini has realized FOG SANITIZER, a sanitizer anti-odour specifically studied for the use with Sani-Helmet, a sanitizing machine patented by Allegrini to sanitize in just 3 minutes helmets, sport footwear and accessories.

FOG SANITIZER is easy, safe and quick to use. During its use, it creates a fog that eliminates bad smells and sanitizes every type of helmet (bicycles, motorbikes, scooters, go-karts, ski, etc.), bags and duffel bags, boxing gloves, bathrobes, shoes and slippers, leaving them perfectly dry and immediately wearable.

Suitable for all the businesses of carwashes and self-service washing, go-kart tracks, sports equipment resale/rental and for gyms, swimming pools and all the sports environments in general.
